

Attention: 4th year Equity Studies/CSES Majors

Students enrolled in the Equity Studies/CSES Major Programs are required to complete at least 0.5 credits at the 400-level from the Core Group, thus requiring the Program to use a registration system to allocate spaces in their 400-level courses. This step was taken to ensure that 4th year ES/CSES Majors are able to enrol in the required number of 400-level courses needed for program completion.

To best match up the available classes with students' preferences and to ensure that you can complete your ES/CSES program requirements in order to graduate in June 2022, we need you to rank in order your preferred 400-level courses

Between June 1 and June 20, 2021, please go

to <https://app.cognomos.com/rank/toronto-NEW-21> and rank your course preference. Login will be based on your UTORid. The site will be open and available until June 20, 2021. You can modify your course preferences/ranking anytime from June 1 and June 20, 2021.

[A Guide to Using Course Match](#)

Please Note:

- In order to maximize your chances of securing a place in a course from your list of preferences, **you are strongly advised by the Department to select the maximum number of course preferences.**
- ***All students must ensure they have the required prerequisites for the courses they have ranked in their preferences.*** Do not assume that being able to register in a 400-level course means that you have satisfied the prerequisites. Prerequisites are not checked at the time of enrolment however, prerequisites will subsequently be checked by the Department and *students enrolled in courses for which they do not have the published prerequisites may have their registration in those courses canceled at any time. The Department may not be able to assist you if you were assigned a space in a course for which you lacked the prerequisites and were subsequently removed from that course.*
- Students who have already completed the required number of 400-level courses needed for ES/CSES program completion will not have access to the website to rank course preference.
- There is no guarantee you will receive your preferred course(s). The system will attempt to most optimally match up students' preferences with the available slots but there are many students to accommodate.
- Students will be enrolled into their assigned course(s) on ACORN immediately before registration begins on July 12, 2021. Starting July 12, 2021, students may request to enroll (space permitting) or waitlist additional courses on ACORN. Courses will open to ES/CSES Minors at that time; and 3rd year Majors and Minors on July 15, 2021.
